<i>Students with two offers</i>	40

*From this year we've have given some inputs on Work skills with the help of the Alumni and feedback of HR Managers, to build their Career path with strong base of the Industrial departments.*

*Work Skills are something like "Life Skills" which one of the Alumni stated that they need driving force to figure out their Career path based on their First Job or How to manage the work allotments every day or How to control the mind against the thought of leaving the job or feeling low during their Company training/assessment period?*

*He also stated that many of his friends and himself were seeking a self-supporting or motivating factor which helps them grow faster or sustain in their Career. Based on this we figured out the term "Work Skills" which will be addressed through the alumnus who got more than 2 or 3 years of experience or the HR Managers.*

*Based on that, whenever the alumni students visit college who are requested to share their views on this particular topic. Also, the HR Managers will be called on a regular interoval to address the Sustainability and Growth of the Career, either as a key note in their sessions or a separate addressing session.*
